

VOLUNTEER WITH IN2SCIENCEUK

# HELP YOUNG PEOPLE REACH THEIR POTENTIAL IN STEM

We are looking for science, technology, engineering and maths researchers and professionals to deliver two 45 minute mentoring sessions online and host a one-day workplace visit for a small group of disadvantaged 16-18 year olds

## MENTOR WITH US THIS SUMMER!

**It's easy.** No mentoring experience is needed.

We provide training and a framework for the sessions.

**It's safe.** Mentoring sessions will be hosted through our secure online platform. In-person visits will take place in accordance with the latest Covid-19 guidance.

**It will make a difference.** Through just a small time commitment you can inspire young minds.

### How does it work?

- Students are interviewed and matched in groups of up to three to a suitable mentor
- Our experienced and friendly staff provide training and guidance to become a fantastic mentor with us
- The programme runs throughout August. Mentors meet with their students online for two 45-minute sessions, before hosting a one-day workplace visit (Covid-19 restrictions permitting)
